# Our Values

---

## Teamwork

We know that our best work is not produced by individuals but by collaborating as a team.

## Accountability

Each one of us is responsible for our words, our actions, and our results

## Integrity

We build trust through responsible actions and honest relationships.

**”** We place strong emphasis on delivering scaffolding solutions that are tailored to meet clients’ specific requirements. *Our values underpin our commitment to deliver.*

## Determination

We will always find a solution. Leveraging the latest systems & tech there’s no place our scaffolds can’t reach.

## Respect

We value all our stakeholders and treat everyone with dignity and respect.

## Triple ISO Certified

Proview Scaffolding operates an Integrated Management System (IMS) incorporating the following International Standards:

ISO 45001 Occupational Health & Safety  
 ISO 9001 Quality Management  
 ISO 14001 Environmental Management

We undergo independent auditing annually and certified by Guardian Independent Certification Limited, a JAS/ANZ accredited organisation.

Our IMS ensures that there is a consistent approach in our project management & delivery, so our clients rest assured their project is in the best hands.

on time, on budget and with safety front of mind.

# Engineering Services

We have Engineering covered. From drawings to leg load calculations, inspections and certifications. Proview has a team of in house and third party Chartered Engineers to support our service delivery.

We can cantilever entire facade scaffolds of a high-rise structure to maintain ground access.

Keep pedestrians safe and stay compliant in the Public Domain. We provide Scaffold & Gantry Type B-Class Overhead Protection.

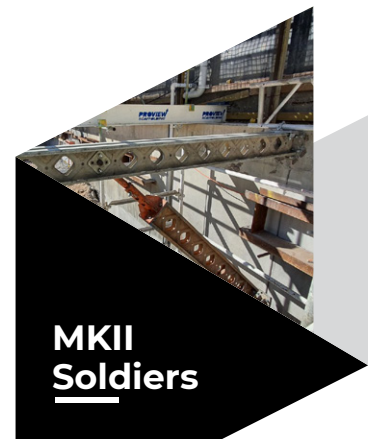

Our suspended stair solution allows you to pour your basement ground slab without disruption. Upto 24 metres deep.

We rigorously test all Chemical Anchors in accordance with Australian Standard 5216:2018 before commissioning & certifying.

We provide very detailed shopdrawings, with elevations, leg loads, & 3d views, all before we proceed onsite. Our drawings are SafeWork & Council compliant.

We can supply & install MKII Soldiers system incorporated into our scaffolding, to achieve heavier duties if required.

# Anti-Tamper solutions

Proview Scaffolding has adopted the ScaffoldSafe Anti Tamper system across all its sites.

ScaffSAFE's patented system prevents unauthorised tampering of scaffold ties, significantly reducing the risk of scaffold collapse.

We're excited to be at the forefront partnering with innovative companies, bringing these solutions to market.

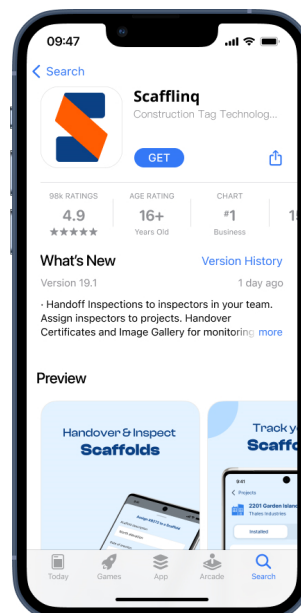

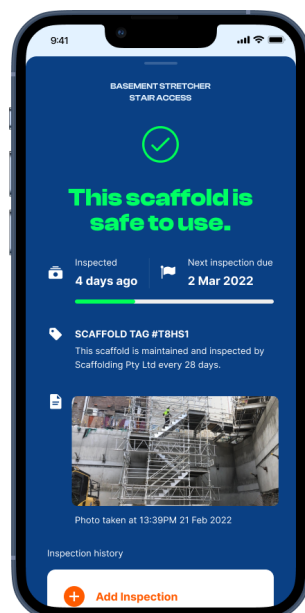

# Never miss an inspection

Technology is making construction sites safer.

At Proview Scaffolding we pride ourselves on being adopters of leading tech to improve our service and safety for all end users of our scaffolding systems.

Scaffling is recognised as a leading solution to ensure our scaffolders are always ontime with their inspections, and your site team can work with peace of mind.
